Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's amendment filed November 18, 2002 (Paper Number 11) has been received and entered. Consequently, claims 1-26 remain pending in the instant application, of which claims 4-26 have been withdrawn from further consideration as drawn to a non-elected invention in Paper Number 8, received May 28, 2002.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

1. The rejection of claims 1-2 under 35 U.S.C. 102(b) as being anticipated by Williamson *et al* is withdrawn in view of Applicant's amendment.

Art Unit: 1645

2. The rejection of claims 1-3 under 35 U.S.C. 102(e) as being anticipated by Ladner *et al* is withdrawn in view of Applicant's amendment.

The following new grounds of rejection are applied to the amended claims:

Claim Rejections - 35 USC § 102

3. Claims 1-3 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Brockaert *et al*.

The claims are drawn to a nucleic acid comprising a modified gene encoding a non-mammalian anti-microbial protein, the gene including a sequence that codes for an amino acid sequence that is identical to the anti-microbial protein produced by the natural host except that the coding sequence includes one or more alterations that disrupt one or more mammalian post-transnational processing events so that the non-mammalian protein is produced and secreted by mammalian cells in its active form.

Brockaert *et al* (U.S. Patent Number 5,824,869) disclose of DNA encoding anti-microbial proteins isolated from seeds. Brockaert *et al* further disclose of creating mutations to the coding region of the gene including a mutation of asparagine to arginine. (See column 2 and Example 22). Brockaert *et al* further disclose that the proteins can be expressed in suitable cells, including mammalian cells. (See column 4).

Art Unit: 1645

In view that Brockaert et al disclose of a nucleic acid encoding a non-mammalian anti-microbial protein, which has been altered by one or more alterations compared to the natural host, and that the protein was secreted in its active form, the DNA disclosed by Brockaert et al is deemed to anticipated the claimed invention.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
